

Community Update 12.23.2025

Good afternoon, Bridges Homeowners and Residents!

The Water Wheel may not be operational at times over the next few days. The Golf Course has detected a leak, and they are in the process of making the necessary repairs.

The damage caused by construction vehicles is being assessed and the necessary repairs will be made. We have spoken with the Gunter Police Department regarding the possibility of Flock cameras at the entries to the neighborhood. This will be a discussion point at the next Board of Directors meeting.

**We wish everyone a Christmas filled with joy and a safe
and Happy New Year!**
